

INSTALLATION AND MAINTENANCE

offered in partnership with a leading Australian Registered Training Organisation (RTO)

DURATION	2 days
PREREQUISITES	Electrical Licence or equivalent and prior completion of equivalent hazardous areas training

WAZP Group, in partnership with a leading Australian Registered Training Organisation (RTO), offers this certified accredited course in South East Asia.

WHAT THIS COURSE DELIVERS

The Installation and Maintenance Refresher course focuses on the practical components of the five day course, particularly on inspections and testing. It refreshes the principles of the following:

- Hazardous area classification
- Explosion-protection techniques
- Equipment installation requirements
- Testing
- Procedures for breakdowns and maintenance
- Visual and detailed inspections
- Updates and amendments to standards
- are also reviewed

WHO SHOULD ATTEND

This course is intended as a periodic refresher for electrical workers and engineers who have previously completed equivalent training.

In accordance with the AS/NZS 60079.14 requirement for continuing education, we recommend that this Hazardous Area training course is refreshed every 2-3 years.

UNITS OF COMPETENCY

UEENEEM080A	Report on the integrity of explosion-protected equipment in a hazardous area
UEENEEM020A	Attend to breakdowns in hazardous areas - gas atmospheres
UEENEEM021A	Attend to breakdowns in hazardous areas - dust atmospheres
UEENEEM022A	Attend to breakdowns in hazardous areas - pressurisation
UEENEEM024A	Install explosion-protected equipment and wiring systems - gas atmospheres
UEENEEM025A	Install explosion-protected equipment and wiring systems- dust atmospheres
UEENEEM026A	Install explosion-protected equipment and wiring systems- pressurisation
UEENEEM028A	Maintain equipment in hazardous areas - gas atmospheres
UEENEEM029A	Maintain equipment in hazardous areas - dust atmospheres
UEENEEM030A	Maintain equipment in hazardous areas - pressurisation
UEENEEM039A	Conduct testing of hazardous areas installations - gas atmospheres
UEENEEM040A	Conduct testing of hazardous areas installations - dust atmospheres
UEENEEM041A	Conduct testing of hazardous area installations - pressurisation
UEENEEM042A	Conduct visual inspection of hazardous areas installations
UEENEEM044A	Conduct detailed inspection of hazardous area installations- gas atmospheres
UEENEEM045A	Conduct detailed inspection of hazardous area installations- dust atmospheres
UEENEEM046A	Conduct detailed inspection of hazardous area installations- pressurisation

PREREQUISITES

An Electrical Licence and evidence of prior training in the equivalent units of competency is generally required in order for a student to be issued with a Statement of Attainment for all units of competency.

A Statement of Attainment can only be issued for units that a participant has previously attained.

Please contact us for more information or to discuss your eligibility.

YOUR OPTIONS

On completion of this course, a Licensed Electrician will have attained a significant portion of the units required for a Certificate IV in Hazardous Areas - Electrical. We are able to offer students the remaining units via Recognition of Prior Learning (RPL).

On completion of this course, a Licensed Electrician is eligible to complete our Hazardous Areas Classification and Design Course and obtain a Statement of Attainment for all of the units.

Please contact us for more information and pricing on these options.
