

CERTIFICATE IV IN HAZARDOUS AREAS - ELECTRICAL (UEE42611)

offered in partnership with a leading Australian Registered Training Organisation (RTO)

OUTCOME	UEE42611 Certificate IV in Hazardous Areas - Electrical
DURATION	Self-paced
PREREQUISITES	Electrical License or equivalent and prior attainment of relevant units of competency to meet qualification packaging rules

WAZP Group, in partnership with a leading Australian Registered Training Organisation (RTO), offers this certified accredited course in South East Asia.

WHAT THIS COURSE DELIVERS

The UEE42611 Certificate IV in Hazardous Areas - Electrical is made up of 23 core units and a range of elective units of competency. In order to attain this qualification, some of the units are credit transferred from a student's electrical trade training and some are credit transferred from the Installation and Maintenance of Electrical Equipment in Hazardous Areas course. We offer the five remaining core units via Recognition of Prior Learning (RPL).

On enrolment, students are provided with a RPL kit. The kit contains questions and recommended documents for submission to provide the assessor with sufficient evidence to determine whether the student is competent in these units. Upon successful completion of the RPL assessment, a student will be awarded the qualification.

UNITS OF COMPETENCY

UEENEEE038B	Participate in development and follow a personal competency development plan
UEENEEE117A	Implement and monitor OHS procedures and policies
UEENEEE124A	Compile and produce an energy sector detailed report
UEENEEE137A	Document and apply measures to control OHS risks associated with electro-technology work
UEENEEK145A	Implement and monitor energy sector environmental and sustainable policies and procedures

(This list of units includes only those units that are completed by RPL with Competency Training)

PREREQUISITES
