

HIGH VOLTAGE SWITCHING OPERATIONS

offered in partnership with a leading Australian Registered Training Organisation (RTO)

DURATION	5 days
PREREQUISITES	Electrical Licence or equivalent

WAZP Group, in partnership with a leading Australian Registered Training Organisation (RTO), offers this certified accredited course in South East Asia.

WHAT THIS COURSE DELIVERS

This course provides detailed training in how to safely perform the duties of a High Voltage Switching Operator, and covers the following topics:

- Legislation and Standards
- Risk management and control
- Approach to high voltage - safe systems of work, permit types and permit procedures
- Writing and checking switching programs
- Performing switching to a switching program.

Students are able to simulate remote high voltage operations using our customised interactive network diagrams as well as performing practical high voltage switching activities in our purpose-built high voltage switching training facilities.

WHO SHOULD ATTEND

This course is designed for electrical workers and engineers working with high voltage switchgear in industrial facilities and networks.

In accordance with the industry guidelines that High Voltage Switching Operators maintain currency in units of switching, Competency Training recommends that this high voltage training course is refreshed every 2-3 years.

UNITS OF COMPETENCY

UEPOPS349B	Operate Local H.V. switchgear
UEPOPS428B	Develop H.V. switching programs
UEPOPS456A	Perform switching to a switching program
UEPOPS525A	Coordinate and direct switching program

AND/OR The following Units of Competency

UETTDREL16A	Working safely near live electrical apparatus
UETTDRI544A	Perform HV field switching operation to a given schedule
UETTDRI548A	Develop high voltage switching schedule
UETTDRI550A	Coordinate power systems permit procedures
UETTDRI551A	Coordinate and direct power system switching schedules
UETTDRI567A	Solve problems in energy supply network equipment
UETTDRI539A	Perform power system substation switching operation to a given schedule

Students are involved in a range of practical activities throughout the training, including writing and checking switching programs, and performing remote and local high voltage switching activities in our purpose-built high voltage switching training centres.

PREREQUISITES

An Electrical Licence is required in order for a course participant to be issued with a Statement of Attainment for all units of competency.

Students who do not have an Electrical Licence are eligible for a Statement of Attainment for the units from the Electricity Supply Industry - Generation Sector Training Package.

Please contact us for information and to confirm your eligibility.

YOUR OPTIONS

This course can be delivered at a client's site, and practical activities can be customised to reflect the client's own electrical equipment.

Please contact us for information and pricing on this option.
